MEMORANDUM: All persons in households below are grouped together with the "head of household" listed first. An asterisk prefix denotes a black person, and a superscripted "m" denotes a mulatto as designated in the original list. All free persons (black, white or mulatto) will have at least two names, but slaves will only have a first name, and these will be indented in each household grouping. The sex of each person is normally determined by the first name, but in questionable cases, an "F" (female) or "M" (male) will be shown if the sex is intimated in the original list. All surnames are capitalized in this paper. The numerical columns below generally follow those in the original document. Each household is arbitrarily numbered beginning with "1" for each tax district, although such numbers were not used in the original list. (The original is filed at the N.C. State Archives in Box C.R. 044.701.19 in folder for taxables 1762-1763).
